

EMS Media Submission Audio v2.1 (July 2014)

Submission of audio to EMS

Changes since version 2.0

- added specifications for cover images
- updated EMS stationery design

For submission as audio CD

- retail copy or CDR
- IMPORTANT: no scratches, no dirt
- the labelling must clearly indicate the release (artist, title and most important the barcode)
- NO adhesive label on the CD (causes imbalance)

For submission as sound files

- FTP, Data-DVD, Data-CD or HDD (requires prior consultation)
- Sound format: ONLY 16bit/44.1khz/stereo .WAV-files (no .AIF, .FLAC, .MP3, etc)
- Folder name: Barcode (13 digits)
- File names: "[setnumber]-[tracknumber] title.wav". Example: "1-7 songtitle.wav"
- for single-set-releases, setnumber can be omitted thus: "[tracknumber] title.wav". Example: "7 songtitle.wav"

For submission of cover-images (ftp import / MMP upload)

- JPG (RGB)
- Min. 1.500 Pixel (of shorter edge with non-quadratic covers) MANDATORY
- Min. 2.400 Pixel (of shorter edge with non-quadratic covers) RECOMMENDED
- No stickers or other print details exceeding identifying product information, such as
 - „CD-ROM included“
 - „Bestseller“
 - „Special Offer“
 - „Exclusive“
 - „Digital Product“
 - Pricing information
 - advertizement of other product/s
